Ämne: Back a traction mini

Hello,

I recently hurt my back doing too much lifting, I'm 47 years old, have always had a slight curve in my lower back and always wake up extremely stiff. I own a small pet sitting company in Florida and was terrified that I might have to give it up due to back problems.

I purchased the above mini while waiting for an appointment with a Doctor which was a 2 week wait. Well, I have since canceled the Dr. appt and feel better than I have ever felt in my life, the pain is gone and I'm actually standing straighter (better posture) Not only did it help get rid of the pain, it is also giving me much needed stretching. Thanks for making an awesome product! I can now walk the big dogs again!

Thank you!

Carolyn Keene
