Karen:

I wanted to take this opportunity to let you know how happy we are with the inversion / traction table we purchased from you a year ago. My patient's are very pleased with the results and the relief this table provides.

I have had several patients refer friends to our office due to treatment on this table. I am so pleased that we made the decision to purchase this item.

It has also helped our office to have such a great piece of equipment that is not at all the other Chiropractic offices in town. It gives our patient's something to talk about. We even had a patient ask us to take a picture of her on the table so she could post it on her electronic media page.

Thank you for such a wonderful product. I have patients come in to treat on the table between adjustments.

Yours in health,

  
Dr. Mark T. Machuga, D.C.
