Re: Master Care Back Traction/Inversion Product

Dear Ms. Johnson:

Thank you for taking the time to come down to our clinic in Hollywood, FL to give us an in-service on how to utilize the Swedish Back Care System to achieve maximum benefits with our patients. I must say that since adopting this piece of equipment into our clinical practice we have found very favorable results in treating the patients that have been deemed appropriate for its use.

I would recommend this piece of equipment as an adjunctive portion of treatment for any clinician who is involved in manual therapy and medical exercise therapy. We have been getting good patient results with treatments and we have been having no problems getting our services reimbursed from third party payors including Workmans Compensation, Managed Care payors and private insurance companies.

Please feel free to have any clinician who is considering purchase of this unit and who has any questions as to its treatment efficiencies or billing questions contact me at the SPORT Clinic at (954) 989-5255. I would be more than happy to provide a reference for you.

Thank you very much. I look forward to speaking with you in the future.

Sincerely,

Thomas P. Fletcher, PT

TPF/sl
